DETAILED ACTION

1. This is in response to applicant's amendment and response filed 8/19/04, in which claims 1-7 and 9 are pending.

Allowable Subject Matter

2. After further search and thorough examination the present application and in view of applicant argument, claims 1-7 and 9 are found to be in condition for allowance.

The following is an examiner's statement of reasons for allowance: the prior art Cina (US 5,937,348) teaches cordless modem comprises a radio pair interfaced to a standard data/fax modem which allows a user of a personal computer to wirelessly connect to a telephone line. One end of the radio pair is a remote unit interfaced to the modem contained within the PC while the other end is a base unit connected to a standard telephone wall jack. This arrangement allows the user the convenience and freedom of using a PC, laptop, personal digital assistant, etc., within several hundred feet of a phone jack without being encumbered by a cord. A warning alarm on the remote unit informs the user when the signal strength between the radio pair is below a threshold value. Additionally, the base unit may be equipped with two spatially separated antennas to help mitigate the effects of signal fading (abstract).

On the other hand, the present application specifically teaches a control circuit section for selecting and switching among perch channels the control circuit detecting interference of radio waves on a selected perch channel and controlling said warning section; said control circuit section reporting, when said control circuit section detects a

radio wave interference fault, a type of the fault to the warning section so that said warning section provides a warning of radio wave interference in a predetermined form based on at least one of visibility and audibility. These limitations, in conjunction with all other limitations of independent claim, has not been found, taught or made obvious over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
